PerTronix has gone to great effort to insure the accuracy of this guide. The following pages represent the most common makes and models of each application. To make sure that the correct part number is selected use these general guidelines:

- Unless otherwise noted, part numbers listed represent 12-volt negative ground kits.
- Applications are based on the vehicle's original equipment.
- Read all footnotes before ordering.
- Some applications are available in 6-volt negative ground, as well as 6 and 12-volt positive ground. Add an N6, P6 or P12 suffix to the part number.
- An "LS" suffix indicates a Lobe Sensor version. Lobe Sensor technology senses the point cam, and does not use a magnet sleeve.
- Additional applications listed by the distributor number starting on page 15.
- Turn to page 46-47 for compatible coils.
- If your application is not listed please contact us for information on possible custom kits.

For optimum performance, combine our Ignitor or Ignitor II ignition system with a coil engineered for it. Check out our complete line of Flame-Thrower, Flame-Thrower II and Xtreme coils starting on page 46.

Footnotes

2	Factory electronic ignition	22	Clockwise rotation	55	Also avalaible in negative 6-volt polarity, add N6 to part number
8	Single point distributor	24	Counter clockwise rotation	56	Also avalaible in positive 6-volt polarity, add P6 to part number
13	Lobe sensor module	27	Screw down cap	57	Also avalaible in positive 12-volt polarity, add P12 to part number
19	Mechanical advance at top of shaft	29	Excluding distributor number iad-4036		
21	See page 62 for complete replacement distributors	34	Non vacuum advance distributor
